

**First Annual Conference**

# **Corrections Technology Association**

**Co-Host: Washington State Department of Corrections  
Safety and Security Committee**

STATE OF WASHINGTON  
DEPARTMENT OF CORRECTIONS

**Seattle, Washington, May 17-20, 2000**

## **Message from the Conference Co-Chairs:**

---

**Dr. Donald E. Price, Washington State Department of Corrections and  
Shiva Sathasivam, Wisconsin State Department of Corrections**

It is a great pleasure to welcome each of you to this "the first" conference of Corrections Technology Association. This will be a great opportunity for corrections technology people to get together to share, learn, and get to know each other. We hope that the selection of sessions provide you with that opportunity.

We look forward to meeting each of you and hope that this conference is the beginning of many more. We also hope that this conference meets all the expectations you had when you registered for it.

There are many people who need to be recognized for making this event a reality. Among them are the National Institute of Corrections, especially to Sammie Brown for all her work, to Larry Cothrun of the California Department of Corrections and Mike Epstein of National Law Enforcement Technology Committee for all their work in organizing the operation technology track. We want to thank Paul Kendall and Anne Gardner from Office of Justice Programs of the United State Department of Justice for their Saturday workshop.

We also want to thank the many corporations who are participating to make this conference a success. We especially want to thank and recognize each of our corporate sponsors, who without their generous sponsorship we would have been unable to have such an event. They are listed in alphabetical order:

### **CORPORATE SPONSORS:**

Advanced Technologies Group, Inc. (ATG)

Ahuja Technologies, Inc. (ATI)

Cabletron Systems, Inc.

Deloitte Consulting

D2K, Inc.

I.B.M. Global Services
